

BRG and Brace GmbH are happy to announce the

26th Microencapsulation Industrial Convention

Frankfurt, Germany - July 22-25, 2024

Registering early will support the success of the convention.

<https://bioencapsulation.net/2024-Frankfurt-Microencapsulation-Industrial-Convention/>

11 Presentations from experts

Lectures from leading experts will cover a large scope of the encapsulation field. Selection mixes senior scientists with high level of encapsulation processes understanding, together with experienced business practitioners of well established practical applications.

Up to 18 B2B Meetings

BRG has developed tools for optimizing the B2B meeting organisation. Based on your own pre-selection among the participants list, we optimize your agenda with up to 18 B2B appointments. Coffee-breaks, exhibition and lunch times will give you additional networking opportunities to establish new contacts and find new partners.

Exhibitors Showcase

A broad state-of-the-art showcase presenting R&D services, Equipment & Tools, Material & Chemicals, Established Techniques in microencapsulation. Meet your future suppliers of equipments, services and production.

Confirmed exhibitors ... Join them !

Conference program

Monday July 22, 2024 evening - Registration and Welcome

Tuesday July 23, 2024

Overview of the microencapsulation technologies

James Oxley SwRI, USA

SOUTHWEST RESEARCH INSTITUTE

In vitro and in vivo studies of delivery systems in animal nutrition

Roberta Majer, Vetagro, Italy

Elemental Analysis: Basics and applications you never heard of

Lutz Lange, Elementar, Germany

Overview of Encapsulation Technology at BASF

Frank Runge, BASF, Germany

Nature-based Gelling Agents and their Potential use in Encapsulation

Alain Phyfferoen, CP Kelco, UK

Wednesday July 24, 2024

Microcapsules for self-lubricating thermoplastic composites and coatings

Alexandra Latnikova, Fraunhofer IAP, Germany

Smart microencapsulation systems for programmable multidrug release

Prof. Gleb Sukhorukov or Yury Moshkin, INCAPTEK, Switzerland

N-PEARLS- novel delivery system for food enrichment with essential nutrients

Emma Kvitnitsky, Nuversys, Israel

Thursday July 24, 2024

Innovative encapsulation processes using fluidized bed technology - case studies

Hans Kröner, Glatt, Germany

Shelf live in storage as a function of water activity and packaging

Gesine Harms, Kerry, Italy

Phospholipid-based Encapsulation systems for your actives. Liposomes, Emulsions and more

Daniel Tritschler, Lipoid, Germany

Do not miss the opportunity to meet more than 100 representatives involved in encapsulation
