

BRG and Southwest Research Institute are happy to announce the

## 27th Microencapsulation Industrial Convention

**San Antonio, Texas, USA - May 12-15, 2025**

### 11 Presentations from experts

Lectures from leading experts will cover a large scope of the encapsulation field. Selection mixes senior scientists with high level of encapsulation processes understanding, together with experienced business practitioners of well established practical applications.

### Up to 18 B2B Meetings

BRG has developed tools for optimizing the B2B meeting organisation. Based on your own pre-selection among the participants list, we optimize your agenda with up to 18 B2B appointments. Coffee-breaks, exhibition and lunch times will give you additional networking opportunities to establish new contacts and find new partners.

### Exhibitors Showcase

A broad state-of-the-art showcase presenting R&D services, Equipment & Tools, Material & Chemicals, Established Techniques in microencapsulation. Meet your future suppliers of equipments, services and production.

### Visit for a tour of SwRI

**Registering and join the largest community on microencapsulation**

<https://bioencapsulation.net/2025-SanAntonio-Microencapsulation-Industrial-Convention/>

# Conference program

**Monday May 12, 2024 evening - Registration and Welcome reception**

**Tuesday May 13, 2024**

**Overview of the Microencapsulation Technologies and New Challenges in Delivery Systems**

Daniel Rivera - AINIA, Spain

**In-air microfluidics for scalable encapsulation of sensitive bio-actives and live cells**

Tom Kamperman, Ph.D. - lamfluidics, Netherlands

**Exhibitor presentations**

Coffee break - Exhibition - B2B meetings - Lunch

**Improving Food using Encapsulated Ingredients**

Marc Meyers - Meyers Consulting, USA

**Biodegradable Microcapsules**

Jiten Dihora - SprayTek, USA

**Chemical Microencapsulation from Beaker to Tankered**

Stephen Baumler - Encapsys, USA

Coffee break - Exhibition - B2B meetings

Convention dinner

**Wednesday May 14, 2024**

**Rethinking the homogenizer- controlled chemical encapsulation at scale**

Camden Cutright - Microfluidics, France

**Particle-based Vaccines: A New Paradigm**

Balaji Narasimhan - Iowa State University, USA

**A Patient and Planet Centric Approach to High Drug Load Formulations**

Sergie Lester - Nanoform, Finland

Coffee break - Exhibition - B2B meetings - Lunch

**Visit for a tour of Southwest Research Institute**

**Thursday May 15, 2024**

**Controlled Release Technology for Crop Protection**

Tapashi Sengupta - Dow, USA

**Microencapsulation and controlled release of active agents in construction industry**

Carina Muetzel - Brace GmbH, Germany

**Fluid bed encapsulation techniques with a focus on Granurex® Rotor Technology**

Garrett Alfred - Freund, Inc., USA

Coffee break - Exhibition - B2B meetings

**Do not miss the opportunity to meet more than 100 representatives involved in encapsulation**
